RE: Delivery of 34-00870, Gates, from Warm Springs Creek

Dear Doug:

As per approved Transfer No. 4985 for the above mentioned right, diversions into the Upper Fish Hatchery Canal from Warm Springs Creek may need to be decreased. Per the recommended order, right no. 34-00870 for 3.46 cfs from Warm Springs Creek should now be split with 0.74 cfs delivered to the Upper Fish Hatchery Canal to satisfy historic canal losses, and the remaining 2.72 cfs left in the unnamed stream tributary to Warm Springs Creek for delivery to Gates' new point of diversion from Warm Springs Creek located at 08N 23E 31 SWSE.

The final order for Transfer No. 4985 has been approved and no protests have been received. The allotted time for filing protests has passed. I have asked Julie Yarbrough to forward a copy of the final order to your office. I am under the impression that Gates has already accomplished the change in point of diversion so that he no longer requires delivery of the full 3.46 cfs into the Upper Fish Hatchery Canal. If I am incorrect in this matter and Gates cannot yet divert from the new point, please notify me. Otherwise, please make appropriate headgate adjustments.

Sincerely,

Scott King
